- **Coordinators:** Shivam Singh (2023UAI1819), Kashvi Gupta (2023UCP1581)

2. Introduction

The Jeopardy-Style Capture The Flag competition represented a pinnacle moment for the InfoSec Club, delivering an intense and technically demanding cybersecurity challenge. It tested participants' exploit development, analytical prowess, and problem-solving capabilities across multiple domains. The event successfully attracted cybersecurity enthusiasts across MNIT Jaipur, establishing itself as a cornerstone competition of SPHINX'25.

3. Event Highlights

- **Description:** The event featured a comprehensive range of challenge categories including Cryptography, Web Exploitation, Forensics, and Logical & Miscellaneous Challenges.
- **Activities:** Participants competed within a 2-hour window to capture as many flags as possible. High-quality submissions indicated solid foundational knowledge among competitors.
- **Winners:** The total prize pool was ₹15,000. 1st Place was secured by Lucky Agrawal, 2nd Place by Nishu Yadav, and 3rd Place by Vedant Aggarwal. All winners received exclusive certificates acknowledging their achievement and technical excellence.

6. SponsorshipSponsorship: None specified in the event documentation.

7. Feedback and Suggestions

- **Participants' Feedback:** The competitive yet collaborative environment fostered both learning and healthy rivalry. Participants gained hands-on experience with industry-standard cybersecurity tools and methodologies. The competitive environment motivated participants to push beyond their comfort zones, resulting in significant learning outcomes.
