

Report on “Green Patrol”

Date: 8th February 2026

Venue: VLTC L006, MNIT Campus

Organizing Body: National Service Scheme (NSS), MNIT Jaipur

Distinguished Presence: NSS Core Team and Volunteers

Introduction

The NSS unit of MNIT Jaipur conducted Green Patrol as an environmentally focused activity to encourage sustainable thinking among students. The event aimed to spread awareness about effective waste utilization by engaging participants in a creative, hands-on task using discarded materials.

Objectives

- To promote awareness about environmental protection
- To encourage reuse and recycling of waste materials
- To foster creativity and innovative thinking
- To instill a sense of responsibility towards nature

Event Details

In the Green Patrol activity, participants were provided with various waste materials such as paper, plastic, and other discarded items. They were required to design and create innovative products using only the given materials. The activity challenged participants to think creatively while understanding the importance of reducing waste and promoting sustainable practices.

Volunteer and Community Engagement

NSS volunteers managed the distribution of materials, guided participants during the activity, and ensured the smooth conduct of the event. Their support and coordination helped maintain discipline and encouraged participants to actively engage with the environmental theme.

Outcomes

- Enhanced awareness about recycling and sustainability
- Encouraged innovative use of waste materials
- Active participation and teamwork among students
- Promoted eco-friendly practices within the campus

Conclusion

The Green Patrol event was successfully organized and received positive participation from students. The activity effectively conveyed the message of environmental responsibility and demonstrated how creativity can contribute to sustainable living. The event aligned well with the objectives and values of the NSS.
