

Technical Society, CACS, MNIT, Jaipur organized one of a kind, event named "EUREKA -BUG" for the students who possess the coding skills in the various languages to show their interest in the coding and to debug the problems given. The students must have the basic language skills as it become a part of day to day activity now a days.

The participant have to participate individually and in the 1st round they have to clear the written quiz of basic language testing.

The main idea of the event was to excel in the debugging skill of the participant and learn the new languages. The main languages are:

C, C++ and JAVA

The event was conducted smoothly and it was a huge success.
