2. Introduction

Enigmatica was a spectacular theatrical event that blended mystery, drama, and humor into a captivating murder-mystery storyline. Designed to stimulate audience curiosity and engagement, the event promoted collaborative problem-solving, and artistic appreciation while bringing the MNIT community together for an evening of suspense and entertainment.

Event Theme: A thrilling murder mystery play that challenged the audience to unravel clues, suspect motives, and solve the case alongside compelling characters in a captivating narrative.

Objective: To provide a fun-filled dramatic experience that encourages critical thinking, teamwork, and audience participation, while showcasing the acting, direction, and storytelling talents of students.

Target Audience: The target audience were students from all departments.

3. Event Highlights

Description: The event commenced at 4 p.m. with an enthusiastic crowd filling the auditorium. The drama revolved around a mysterious crime, layered with clues, hidden motives, and unexpected twists. Performers delivered powerful dialogues, expressive acting, and well-timed humor, ensuring constant laughter and excitement in the hall. The audience was invited to solve the case, making the atmosphere highly interactive and engaging.

Activities: The event comprised a full-length theatrical play featuring dramatic performances and audience interaction segments for clue analysis.

Participation: There were about 15 performers with almost 200 attendees.

4. Sponsorship

None

5. Feedback and Suggestions
